GLOBAL AWARENESS SOCIETY INTERNATIONAL

The Global Awareness Society International, Inc. is a non-profit organization composed of people and organizations of various backgrounds that recognize that the world is no longer made up of independent nations and cultures. This technological induced change affects everyone. We, as an organization, wish to explore the exciting potential that globalization of the world's cultures and societies presents to each and every one of us as citizens of this planet. Established in 1991, our membership includes both academic and non-academic based professionals and individuals from various organizations and nations including the United States.

Globalization has made possible what was once merely a vision: the peoples of our world united under the roof of one Global Village. Yet, despite increasing interdependence, human conflicts continue to blemish the landscape of our planet. We believe that a vital step toward achieving peace, harmony, and cooperation among the diverse peoples of our globe is to promote mutual understanding and appreciation for one another. Global Awareness Society International strives to turn a global vision into global reality.

Purposes of the Global Awareness Society International

- To promote awareness of the diversity of cultures within our global community.
- To enhance our understanding of the political, economic, social, demographic, technological, and environmental issues among members of the global community.
- To increase sensitivity to issues related to rapid globalization.
- To develop a mutual support network of scholars, professionals, interested people and organizations.
- To provide multiple forums for the exchange of research, knowledge, and expertise on people oriented issues related to globalization.
- To help people recognize the diversity and interdependence of the globe's peoples and the process of globalization.
- To develop and expand the number of national or regional Global Awareness Societies under the direction of the G.A.S.I. to pursue our common goals.

Proceedings

The *Proceedings* of the 24th Annual Conference will be assembled and published online under the editorship of Dr. James Pomfret of Bloomsburg University. Guidelines for submitting papers are at the end of this program.

Welcome to Hungary

1. Hungary is a land-locked country in Central Europe sharing its borders with Austria, Croatia, Romania, Serbia, Slovakia, Slovenia and Ukraine. The population of Hungary is approximately 9,900,00
2. Its capital city is Budapest with a population of 1.709 million (2011).
3. Founded in 897, Hungary is one of the oldest countries in Europe (before France and Germany became separate entities, and before the unification of Anglo-Saxon Kingdoms.)
4. Around 1000 CE, the Kingdom of Hungary was one of the largest states in Europe, bigger than France. Later, it became one of the two “eagle heads” of the Austro-Hungarian Empire.
5. Communism in Hungary ended 1989 and the country became a parliamentary republic. It joined NATO in 1999 and the EU five years later.
6. Hungary has a long tradition of classical music with famous composers like Béla Bartók, Zoltán Kodály and Franz Liszt.
7. As of 2007, 13 Hungarians had received a Nobel Prize (this is more than Japan, China, India, Australia or Spain) in every category except peace.
8. The University of Pécs, the oldest university of Hungary, was founded in 1367.
